

# BAMBOO

## NATURE'S MIRACLE GRASS

There's recorded history of bamboo being used as long as 7,000 years ago. It is one of the fastest growing plants in the world. In fact, it can grow up to 60 cm/24 inches in one day. Bamboo is a fascinating material due to its incredible strength and regenerative properties. A pole of bamboo can regenerate to its full mass in just six months. It can be continuously re-harvested every three to seven years without causing damage to the plant system and the re-harvesting actually improves the overall health of the plant. Its surrounding environment is not harmed because its root system stays intact so erosion is prevented. Bamboo has very quickly emerged as an extremely viable alternative to all sorts of non-renewable products.

Beyond the appeal, charm, and natural beauty, bamboo is strong, clean, and incredibly useful. At present, Debcos offers over 30 products that have bamboo incorporated into their product design. From small to large, simple to complex, inexpensive to premium, Debcos has a bamboo product to suit every budget and application. Whether entertaining, working hard at the office or home, or enjoying a well-deserved treat, bamboo can offer anyone a smart product solution.

Renewable, anti-bacterial, resilient, reliable, and moisture-resistant are just a few of the many properties of this naturally wonderful material.

### KP4747 Tremendous perceived value

This cheese board feels, looks, and works fantastic. Essentially, the KP4747 is a portable butcher's block that brings to mind previous generations of exceptional quality. Without question, it's a gift that is greatly appreciated by every recipient.

### CL4954 A truly unique wall clock with character

The layered design of this clock offers a distinct look of quality and depth. Die cut numbers on the raised surface add to the charm. A perfect complement to any decor, this clock stands the test of time.

### KP7079 Versatile packaging with an upscale finish

Whether for fun or freshness, this handsome sealed container holds its own. Open or wrapped food products are safely stored inside thanks to the BPA free (and FDA approved) liner. Peace of mind and easy to clean.

### G7065 The perfect fit

Stand out from any crowd, especially on the golf course, with this eco divot tool and marker set. No matter the handicap, the divot tool and marker will be a perfect fit in any hand, pocket, or golf bag. Also available as part of a golf kit (GP7066).

### KP6930 Genuine natural appeal

This serving set comes complete with three practical utensils. Use the string spoon, spatula, or spoon when cooking or serving. The tray doubles as a stylish resting place for the tools as well as a serving vehicle for delicious delights. This gift set has a genuine natural appeal.

### BQ6931 Outstanding presentation

Cook and entertaining in grand style with the help of this luxurious BBQ tool set. Wonderfully packaged in an upscale bamboo case, this set combines quality tools with outstanding presentation to exceed the highest perceived values. A definite attraction, this set is guaranteed to be the talk of every backyard-grilling affair.

### GP6969 Packaging is everything

Thanks to the generous room for plenty of flavours, there will likely be much more than "two for tea." Offering tea out of such an elegant box is a genuine treat and makes the recipient feel truly spoiled. In this case, packaging is indeed everything. The tastefully appointed gift box is a perfect home for any favourite blend.

### CO7019 Functional and fashionable

This set of four coasters works well on any table or desk, and in any setting. Beyond the pleasing look, the coasters are also a perfect combination of two wonderful eco materials – bamboo and cork. When gifts make sense, they are appreciated and used. These coasters will always be on display and/or offer protection to your table or desk.
